SMOKEY ROAD MIDDLE SCHOOL

OUR STUDENTS

Mission

Striving to **Reach** and **Motivate** Students

Vision

We ensure that each student
attends school,
is in a safe environment,
feels valued as an individual,
and learns the appropriate curriculum for future success.

Demographics	753 Students	5,185 County MS
African American	34% (253)	21%
Other Minority	7% (55)	12%
Caucasian	59% (445)	67%
Students with Disabilities	13% (98)	10%
Student Support Team	5% (37)	3%
Gifted	16% (124)	20%
Economically Disadvantaged	62% (480)	45%

Striving to Reach and Motivate Students

MASTERING CONTENT AND EXPECTATIONS

Content Specialization
Special Education teachers specialize in a grade level subject.

Staying on Track
Teachers of special education resource classes teach the same grade level subject in a co-teach environment, ensuring that the resource class stays on track with grade level peers.

Striving to Reach and Motivate Students

THREE TEACHER MATH

- Three Teacher Math is used in place of traditional separate and co-teach math classes.
- Regular and special education students who struggle in math receive instruction from three certified math teachers (regular education, special education, and instructional coach) for 75 minutes daily.
- Three teachers provide more one-on-one instruction and true flex grouping for remediation and acceleration as needed without removing students from instruction, all while educating special education students alongside their regular education peers.

Striving to Reach and Motivate Students

STUDENT'S PERSPECTIVE

SEPARATE CONNECTIONS

- Students in the three teacher math class also participate in an additional separate math connections class as part of IEP services as needed for 45 minutes daily where teachers pre-teach and re-teach math content, giving struggling math students a total of 120 minutes of math instruction daily from four fully certified and highly qualified teachers.
- A separate Reading class is also offered during connections time.

Striving to Reach and Motivate Students

CO-TEACH MODEL

Nationally, **57%** of students with disabilities spend approximately **80%** or more of their time in general education each day.

At Smokey Road, we gradually decreased separate resource classes in favor of more effective heterogeneous co-teach classes, while providing separate resource class services in addition to, not in place of, the general education class.

At Smokey Road, **85%** of students with disabilities spend approximately **80%** or more of their time in general education each day, with **100%** spending at least **26%** of their time in general education each day, including students receiving self contained services.
