

# District MTSS Plan

## Elementary Schools (K-5)

### Year 1 (2014-2015):

*\*Fidelity of implementation checks done three times per year internally and by an independent evaluator. After each fidelity check data is used to refine implementation plan. Information is used to drive professional development and implementation activities.*

*1. Benchmark screening done two times per year (Fall & Winter) with grades 2-5 in reading, math, and behavior. Benchmark screening done three times per year K-1.*

Outcome Measures (end of year 1):

- Total score on **Assessments** portion of the fidelity rubric 20 or higher.

*2. Data based decision making for screening and progress monitoring done with integrity (appropriate use of aimsweb decision rules).*

Outcome Measure (end of year 1):

- Total score on **Data-Based Decision Making** portion of the fidelity rubric 10 or higher.
- Check the progress-monitoring schedules for 20 randomly selected students from each school. Data will show that interventions were changed for 80% of these students based on aimline versus trend line or four data point analysis.
- Progress monitoring being done with 70% of tier 2 and tier 3 students.

*3. Knowledge, resources, and organizational structures necessary to operationalize all components of MTSS in a unified system to meet the established goals.*

Outcome Measure (end of year 1):

- **Infrastructure and Support** portion of the fidelity rubric total score 50 or higher.

*4. Spring: Begin reviewing **Multilevel Instruction** portion of implementation rubric and developing plan for year 2.*

### Year 2 (2015-2016):

*\*Fidelity of implementation checks done three times per year internally and by an independent evaluator. After each fidelity check data is used to refine implementation*

*plan. Information is used to drive professional development and implementation activities.*

*1. Maintenance of year 1 implementation:*

*Continue to refine assessment and data-based decision making as evidenced by...*

Outcome Measure (end of year 2):

- Total score on **Assessment** portion of fidelity rubric 23 or higher.
- Total score on **Data-Based Decision Making** portion of the fidelity rubric 10 or higher.

*2. Based on district data develop a multi level prevention system.*

Outcome Measure (end of year 2):

- Tier 1: Total score on **Multilevel Instruction Tier 1** 20 or higher.
- Tier 2: Total score on **Multilevel Instruction Tier 2** 15 or higher
- Tier 3: Total score on **Multilevel Instruction Tier 3** 15 or higher

*3. Knowledge, resources, and organizational structures necessary to operationalize all components of MTSS in a unified system to meet the established goals.*

Outcome Measure (end of year 2):

- **Infrastructure and Support** portion of the fidelity rubric total score 55 or higher.

**Year 3 (2016-2017):**

*\* Fidelity of implementation checks done two times per year (Winter, Spring) internally by building Implementation Team. After each fidelity check data is used to refine MTSS plan. Information is used to drive professional development and implementation activities.*

*1. **All components of MTSS** implemented. Evidenced by a total score of 130 or higher on the Fidelity of Implementation Rubric.*

**Year 4 (2017)- :**

*\* Fidelity of implementation checks done one time per year (Spring) internally by building Implementation Team. After the fidelity check data is used to refine MTSS plan. Information is used to drive professional development and implementation activities.*

*1. **All components of MTSS** implemented. Evidenced by a total score of 130 or higher on the Fidelity of Implementation Rubric.*

## Middle Schools

### Year 1 (2014-2015)

1. *Fall: Introduce concept of MTSS to principals.*
2. *Winter/Spring: Create building Implementation teams, train on implementation science, train on core principals of MTSS, build year one plan, and introduce MTSS to building staff.*

Outcome Measure:

- Total score of Infrastructure and Support Mechanism section on Implementation Rubric is 50 or higher.
- Completed Hexagon Tool.

### Year 2 (2015-2016):

*\*Fidelity of implementation checks done three times per year internally and by an independent evaluator. After each fidelity check data is used to refine implementation plan. Information is used to drive professional development and implementation activities.*

1. *Benchmark screening done two times per year (Fall and Winter) in identified areas 6-8.*

Outcome Measure (end of year 2):

- Score on **Assessments** portion of the fidelity rubric 20 or higher.

2. *Data based decision making for screening and progress monitoring done with integrity.*

Outcome Measure (end of year 2):

- Total score on **Data-Based Decision Making** portion of the fidelity rubric 10 or higher.

3. *Knowledge, resources, and organizational structures necessary to operationalize all components of MTSS in a unified system to meet the established goals.*

Outcome Measure (end of year 2):

- **Infrastructure and Support** portion of the fidelity rubric total score 55 or higher.

**Year 3 (2016-2017):**

*\* Fidelity of implementation checks done three times per year internally and by an independent evaluator. After each fidelity check data is used to refine implementation plan. Information is used to drive professional development and implementation activities.*

*1. Maintenance of year 2 implementation:*

*Continue to refine assessment and data-based decision making as evidenced by...*

Outcome Measure (end of year 3):

- Score on **Assessment** portion of fidelity rubric 23 or higher.
- Score on **Data-Based Decision Making** portion of the fidelity rubric 10 or higher.

*2. Based on district data develop a multi level prevention system.*

Outcome Measure (end of year 3):

- Tier 1: Total score on **Multilevel Instruction Tier 1** 20 or higher.
- Tier 2: Total score on **Multilevel Instruction Tier 2** 15 or higher
- Tier 3: Total score on **Multilevel Instruction Tier 3** 15 or higher

*3. Knowledge, resources, and organizational structures necessary to operationalize all components of MTSS in a unified system to meet the established goals.*

Outcome Measure (end of year 3):

- *Infrastructure and Support* portion of the fidelity rubric total score 55 or higher.

**Year 4 (2017-2018):**

*\* Fidelity of implementation checks done two times per year (Winter, Spring) internally by building Implementation Team. After each fidelity check data is used to refine MTSS plan. Information is used to drive professional development and implementation activities.*

*1. All components of MTSS implemented. Evidenced by a total score of 130 or higher on the Fidelity of Implementation Rubric.*

**Year 5 (2018)- :**

*\*Fidelity of implementation checks done one time per year (Spring) internally by building Implementation Team. After the fidelity check data is used to refine MTSS plan. Information is used to drive professional development and implementation activities.*

1. *All components of MTSS implemented. Evidenced by a total score of 130 or higher on the Fidelity of Implementation Rubric.*

**High School**

**Year 1 (2015-2016):**

1. *Fall: Introduce concept of MTSS to principal.*
2. *Winter/Spring: Create building Implementation teams, train on implementation science, train on core principals, of MTSS build year one plan, and introduce MTSS to building staff.*

Outcome Measure (end of year 2):

- Total score of **Infrastructure and Support Mechanism** section on Implementation Rubric is 50 or higher.
- Completed Hexagon Tool.

**Year 2 (2016-2017):**

*\* Fidelity of implementation checks done three times per year internally and by an independent evaluator. After each fidelity check data is used to refine implementation plan. Information is used to drive professional development and implementation activities.*

1. *Benchmark screening done with agreed upon grades for high school success indicators.*

Outcome Measure (end of year 3):

- Score on **Assessments** portion of the fidelity rubric 20 or higher.

2. *Data based decision making for screening and progress monitoring done with integrity.*

Outcome Measure (end of year 3):

- Total score on **Data-Based Decision Making** portion of the fidelity rubric 10 or higher.

*3. Knowledge, resources, and organizational structures necessary to operationalize all components of MTSS in a unified system to meet the established goals.*

Outcome Measure (end of year 3):

- **Infrastructure and Support** portion of the fidelity rubric total score 55 or higher.

**Year 3 (2017-2018):**

*\*Fidelity of implementation checks done three times per year internally and by an independent evaluator. After each fidelity check data is used to refine implementation plan. Information is used to drive professional development and implementation activities.*

*1. Maintenance of year 2 implementation:*

*Continue to refine assessment and data-based decision making as evidenced by...*

Outcome Measure (end of year 4):

- Score on **Assessment** portion of fidelity rubric 23 or higher.
- Score on **Data-Based Decision Making** portion of the fidelity rubric 10 or higher.

*2. Based on district data develop a multi level prevention system.*

Outcome Measure (end of year 4):

- Tier 1: Total score on **Multilevel Instruction Tier 1** 20 or higher.
- Tier 2: Total score on **Multilevel Instruction Tier 2** 15 or higher
- Tier 3: Total score on **Multilevel Instruction Tier 3** 15 or higher

*3. Knowledge, resources, and organizational structures necessary to operationalize all components of MTSS in a unified system to meet the established goals.*

Outcome Measure (end of year 4):

- **Infrastructure and Support** portion of the fidelity rubric total score 55 or higher.

**Year 4 (2018-2019)**

*\* Fidelity of implementation checks done two times per year (Winter, Spring) internally by building Implementation Team. After each fidelity check data is used to refine MTSS plan. Information is used to drive professional development and implementation activities.*

**1. All components of MTSS implemented. Evidenced by a total score of 130 or higher on the Fidelity of Implementation Rubric.**

**Year 5 (2019) - :**

*\*Fidelity of implementation checks done one time per year (Spring) internally by building Implementation Team. After the fidelity check data is used to refine MTSS plan. Information is used to drive professional development and implementation activities.*

**1. All components of MTSS implemented. Evidenced by a total score of 130 or higher on the Fidelity of Implementation Rubric.**
