

# Addressing Behaviors

Presented by: Toni Shelby

# Objectives:

- Understand that every behavior has a purpose
- Learn Environmental Strategies
- Learn Proactive Behavior Strategies

# How Do Behaviors Develop?

By being reinforced! Negative behaviors develop when the action is rewarded with the desired outcome. Knowing this, and remembering it is key to addressing any sort of behavior.

# Responding to Behavior

## Proactive strategies

- Can prevent behavior or change behavior
- Environmental supports
- Behavior supports
- Focus efforts here

## Reactive Strategies

- Do not create long-term change
- Crisis management
- Few choices

# Every Behavior Has a Purpose

Escape

Avoid

Gain  
Tangibles

Attention

Sensory  
Stimulation

# What is the goal?

Teach and increase  
replacement  
behavior

Reduce negative  
behavior by making  
it ineffective

# Negative Language: Don't Look!

- Tell students what you want them to do
- Children don't learn by being told what not to do
  - they learn by seeing and hearing what to do.
- Avoid Ending with a question, OK?
- offer at least one alternative that the child can do or
  - ask them for an alternative

# Methodology of Behavior Change

## Positive Reinforcement

- Positive behavior followed by positive consequences

## Negative Reinforcement

- Positive behavior followed by the removal of negative consequences

## Punishment

- Negative behavior followed by negative consequences

## Extinction

- Negative behavior followed by removal of positive consequences

# How do you feel about behavior?

## Student who has behaviors

- Changeable
- Require attention
- Need to work on something

## Behavior Student

- Value judgment
- Student at fault
- Not changeable

# Meeting Students' Needs Proactively

Does their behavior impede their learning, or that of others?

- Behavior Plan
- Environmental Supports

# Environmental Supports

- Reduce Stressors
  - Breaks – Prior to Behavior
  - Decrease task demands
  - Sensory stimulation
- Remove or avoid triggers
- Increase structure and predictability
- Read cues and react before behavior occurs
  - Diffuse tense situations through re-direction and distraction
- Use De-escalating Language
  - Non-confrontational
  - Calm tone of Voice

# Visual Support

- Pictures or Words
  - Used to cue behaviors or what to do
  - Used to provide a bank to aid in communication
- Help Students:
    - Follow Rules
    - Understand what they are supposed to do
    - Transition from one activity to another
    - Make Choices
    - Communicate

## Morning Schedule

## DESCRIBE YOUR SAD:

BIG SAD

SMALL SAD

LIGHT SPRINKLING  
OF SAD

RISING SAD

SHARP SAD

CONFUSINGLY  
BEAUTIFUL SAD

HEAVY SAD

CREEPING SAD

SAD ON TOAST

# Visual Task

- Helps break down executive functioning skills
- Makes big things less overwhelming
- Decreases “forgetfulness”
- See the outcome

# CHORE + ROUTINE CARDS

<p>BRUSH TEETH</p> 	<p>GO POTTY</p> 	<p>GET DRESSED</p> 	<p>MAKE BED</p> 	<p>EAT BREAKFAST</p> 
<p>PUT TOYS AWAY</p> 	<p>CHORES</p> 	<p>BRUSH TEETH</p> 	<p>PUT ON PAJAMAS</p> 	<p>TAKE OUT TRASH</p> 
<p>VACUUM FLOORS</p> 	<p>FOLD LAUNDRY</p> 	<p>FEED DOG</p> 	<p>DRY HAIR</p> 	<p>CLOTHES IN HAMPER</p> 

# Verbal Praise

- Be very specific to the desired behavior
- Directed specifically to the student
- Increase the effort behind the change

# Rewarding positive behaviors

- Strengthens the behavior you want to see
- When appropriate, reward “close” behaviors
- Must be achievable
- They need to be good!
- Reinforcement
  - Time with friend
  - Helper position or authority position
  - Decrease amount of work
  - Token economy/point system

# Social Narratives

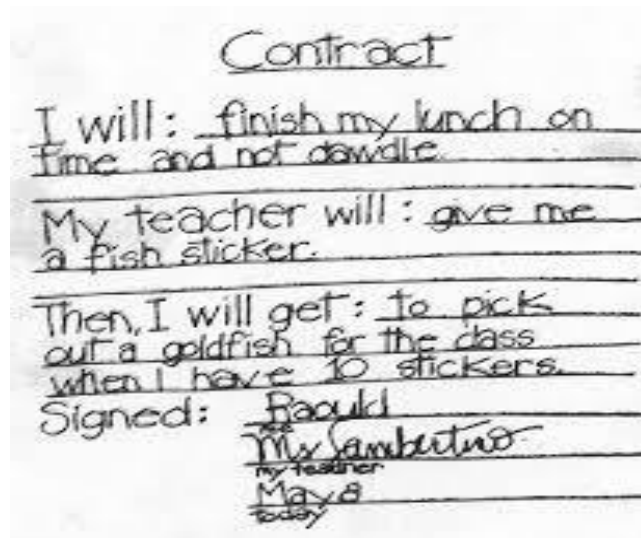

- Describes desired behavior
- Helps prepare and practice behaviors
- Model appropriate social or Behavior interaction by describing a situation with relevant social cues, other's perspectives, and a suggested appropriate response

Resource:

# Behavior Contract

- Positive Reinforcement Intervention
- Spells out Expectation of Student and Adult

## Behavior Contract

I, \_\_\_\_\_, agree to make the following positive behavior changes:

---

---

---

---

---

---

---

My efforts at meeting this goal will be considered complete when:

---

---

---

When I successfully complete this contract, I will be rewarded by:

---

---

Student signature: \_\_\_\_\_

Teacher signature: \_\_\_\_\_

Parent signature: \_\_\_\_\_

Other school staff signature: \_\_\_\_\_

Date: \_\_\_\_\_

# Ignoring

- Used for attention seeking
- Peers must ignore too
- Let the student know you will ignore it
- Consistency is what makes it effective
- Use when appropriate!
- Must teach Replacement skill

# Normal Growth is:

- When learning new skills there are ups and downs
- Variables can affect performance
- Demonstration of the skill does not equal mastery
  - Golf
  - Driving
  - Art

# Roles of staff with Behavior

## Paraeducators

- Collect and provide data
- Implement the plan as trained
- Use preventative strategies
- Teach and reinforce replacement behaviors

## Certified Staff

- Analyze behavior
- Develop a Behavior Intervention plan
- Train all staff on how to implement plan
- Teach replacement behaviors to staff and students
- Check in on success
- Adjust the plan if necessary, with the IEP team.

# What to do if things are not working

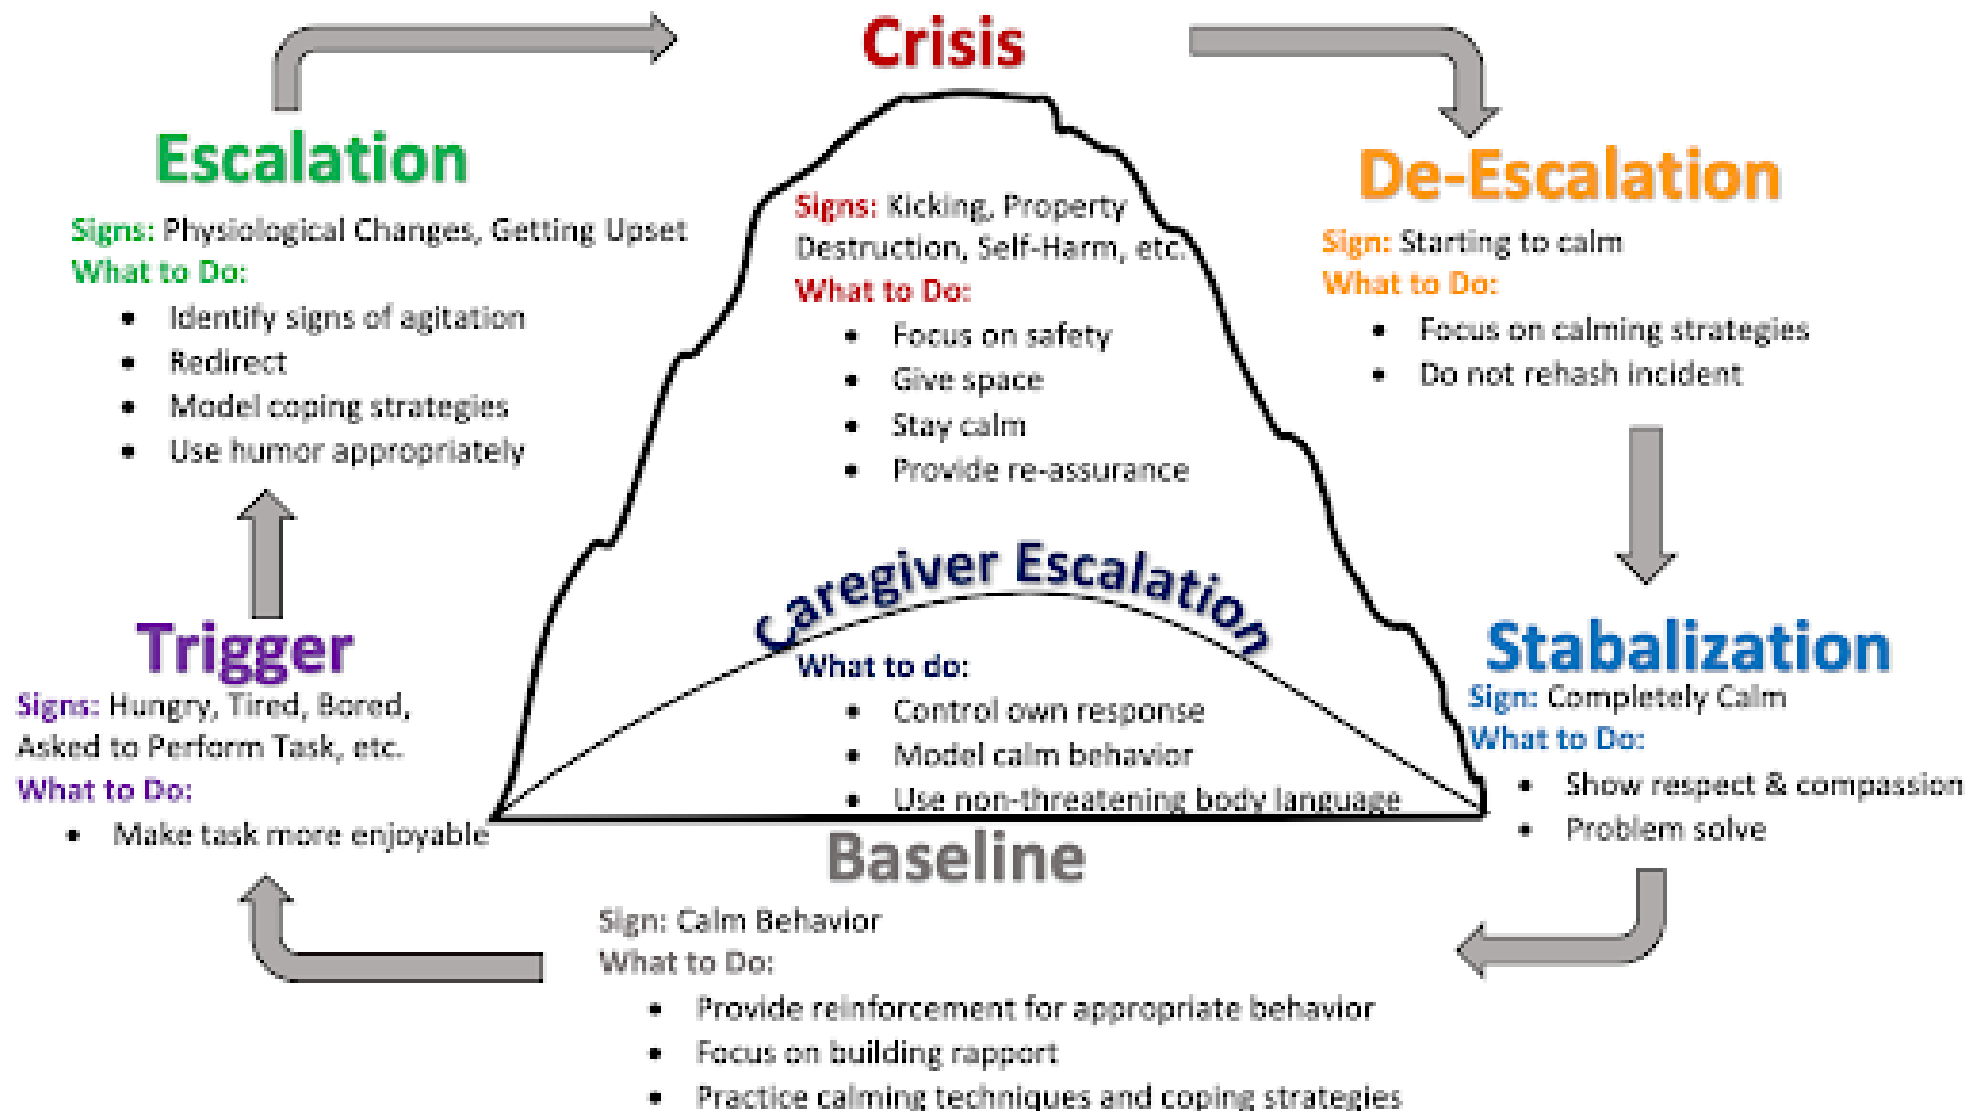

- Avoid taking the behavior situation into your own hands
- Ensure that you are following the plan as intended
- Document everything

# De-Escalating a Behavior

What do we do when the behavior is happening and there isn't a plan in place already?

Behavior escalation follows a pattern - it's important to learn that pattern!

# Educator and Caregiver Escalation Cycle

You cannot see your reflection in a boiling pot of water.

# Regulation

When do we address the crisis?

## De-Escalation

**Sign:** Starting to calm

**What to Do:**

- Focus on calming strategies
- Do not rehash incident

## Stabalization

**Sign:** Completely Calm

**What to Do:**

- Show respect & compassion
- Problem solve

# Questions?
